SUMMARY

Motivated and detail-oriented Software Developer with over 6 years of experience in designing, developing, and maintaining full-stack web applications. Proficient in modern frameworks like React, Angular, and Spring Boot, with hands-on experience in both frontend and backend development. Skilled at building scalable applications, designing robust APIs. A strong team player with excellent problem-solving abilities and a passion for clean, efficient code.

WORK EXPERIENCE

Frontend Developer   **Make Digital / Nov 2022 - Present**

- Developed responsive and interactive user interfaces using React, HTML, and CSS, ensuring cross-device and browser compatibility.
- Integrated GraphQL APIs to enhance data-fetching efficiency and improve overall application performance.
- Created and maintained a comprehensive Storybook UI documentation system to support component reusability and consistency across projects.
- Write end-to-end tests using Playwright, ensuring feature reliability and maintaining high test coverage.
- Collaborated with UI designer and backend teams to ensure smooth end-to-end development workflows.

Software Engineer   **ttb bank / May 2022 - Nov 2022**

- Developed and maintained microservices to support core functionalities like money transfer, withdrawal, and top-up in the ttb touch mobile banking app.
- Utilized Spring Boot to ensure reliable backend operations.
- Participated in agile methodology, including sprint planning, daily stand-ups, and retrospectives.
- Write unit tests and assist in debugging and fixing production issues.

Programmer Analyst   **AIS / Oct 2018 – May 2022**

- Gathered requirements and worked closely with stakeholders to define and create document system design specifications.
- Developed full-stack applications using Angular for frontend and Spring Boot for backend services.
- Designed and implemented database structures to support scalable systems using PostgreSQL.
- Created and maintained REST APIs and scheduled batch jobs using Spring Batch.

Web Developer Intern   **AppMan / Nov 2017 – Feb 2018**

- Built a specialized tool using Flask and image processing libraries to analyze histograms of image datasets.
- Gained hands-on experience working with real-world business applications in a collaborative team environment.

EDUCATION

Bachelor's Degree in Computer Engineering
- Suranaree University of Technology, 2014 - 2018

ADDITIONAL INFORMATION

- **Languages/Frameworks:** Java, JavaScript, TypeScript, Python, Spring Boot, React, Vite, NextJs, Angular
- **UI & Tooling:** styled-components, tailwind css, Photoshop, Storybook
- **Databases:** PostgreSQL, Firebase
- **DevOps/Tools:** Git, Sourcetree, Jenkins, Jira, ClickUp
- **API Technologies:** REST, GraphQL
- **Testing/Automation:** Spring Batch, Responsive Design, Playwright
- **Soft Skills**: Strong analytical and troubleshooting abilities, team player, high adaptability and willingness to learn
